Subject: Perf standards input schedule

Hi Alice,

We initially targeted providing comments to you on the inter-relation of performance standards later this week, however in discussion with Steve McGee and team, he asked if we might have an additional week to consolidate comments and perspective (we had discussed providing to you this week), and then perhaps tie in any feedback we may have following discussion tomorrow as well. Therefore we're planning to pull these together by the end of next week following our call tomorrow. Hope this works.

We are also still tweaking Gantt planning schedules options per discussion and I hope to have an updated draft next week as well - I'd like Tetra Tech to take lead on maintenance so we're still testing formats a bit for functionality.

Thanks!

Juan
